

CHINA VENTURES CONTRACTS TO DISTRIBUTE AERIUS PHONES IN CHINA

WATSONVILLE, CA - (Marketwire – May 6, 2009) - Aerius International is happy to announce China Ventures, LLC of China has contracted to represent, sell, and distribute Aerius revolutionary new 3G cell phones in China. "Because China is one of the world's largest and fastest growing markets spending \$8.6 billion in 2009 and \$5.8 billion in 2010 upgrading networks to 3G, China is a major market for Aerius phones," said Steven Allemang, China Ventures President.

"Aerius benefits include increasing battery life 66%, range and coverage area 180%, and virtually eliminating phone radiation absorbed by users compared with other handsets sold today. Widespread use of Aerius phones will also reduce carbon dioxide emissions by 5 tons annually per cell site saving millions in OPEX for carriers," added Allemang.

"It's important to know Aerius performance is certified by carriers, the FCC in the US, and CTIA certified labs worldwide. The credibility of Aerius performance and protected IP guarantees customer satisfaction and market leadership by Aerius phones through China Ventures and Aerius reps worldwide," said Bill Luxon, Aerius CEO.

"For more independent carrier and certified lab test information on Aerius phones in English and Mandarin see website, goaerius.com," added Luxon.
