
AERIUS PHONE SALES SET TO LAUNCH

WATSONVILLE, CA - (Marketwire – April 16, 2009) - Aerius International: Experienced sales teams in major nations are set to sell Aerius' new revolutionary smartphones reported Chuck Closterman, Aerius VP International Sales. "We've attracted cream of the crop sales reps experienced in selling phones for Nokia and others. What caught their eye is Aerius' proven performance of 66% longer battery life, 100% greater range, fewer dropped calls and faster transmission times due to Aerius' elimination of handset power lost into users," said Closterman.

"The reps Aerius is partnering with have extensive experience with retailers and carriers and understand what it takes to make a strong new 3G product launch. As soon as they receive Aerius samples they're ready to roll," added Closterman.

"It's important to recognize Aerius performance reports come not from Aerius, but from carriers, the FCC, and CTIA certified labs worldwide that have tested Aerius equipped phones. Their credibility added to Aerius' rep experience and contacts will result in sale of millions of new Aerius smartphones worldwide," said Bill Luxon, Aerius CEO.
